Market deadline (CET) T2S DTS (day-time settlement) cycle including RTS (real-time settlement)	S 16:00 transactions versus payment S 18:00 transactions free of payment

2.0 Settlement guide

2.1 Settlement process

Transactions free of payment and versus payment both have to match before settlement.

At the settlement platform, the settlement information for the two instructions is compared. The data must be identical in order to match, except for the cash amount, for which in against-payment instructions, a matching tolerance applies, which is defined by the settlement platform. The amount in the seller's instruction takes precedence. Instructions remain unmatched if there is a difference greater than the acceptable tolerance.

An instruction sent for matching in the local market remains pending until matching is successful, or until cancelled either by the member or by the settlement platform.

The matching of instructions is binding, i.e. instructions can no longer be cancelled or can only be cancelled upon request by both parties.

All SIX x-clear Ltd transactions for OCSD securities will be marked as "partial eligible" with T2S.

2.2 Handling of unmatched trades

Trades should be matched on S-1 prior to the T2S NTS market deadline to ensure timely settlement. SIX x-clear Ltd will monitor unmatched transactions and contact counterparties for missing/failing instructions if necessary. Clearing members are also requested to monitor unmatched trades and to ensure instructions are in place.

2.3 Handling of unsettled trades

Trades are expected to settle on the intended settlement date (ISD). SIX x-clear Ltd will not cancel or amend instructions. Cancellations and reinstructions will only be performed by SIX x-clear Ltd for instructions that are veritably incorrect or where a manual transaction split has

User Guide SIX x-clear Ltd

Austria

been agreed. SIX x-clear Ltd will monitor unsettled transactions and contact counterparties for delayed transactions if necessary. In respect of late settlement, please refer to the “Late settlement and buy-in guide” of SIX x-clear Ltd. SIX x-clear Ltd may pass on any third-party fees, including but not limited to cancellations, manual instructions, manual repairs and late settlement penalties.

2.4 TARGET2-Securities (T2S)

The Austrian CSD OCSD will participate in T2S with its full ISIN universe. SIX x-clear Ltd uses the custodian services of SIX SIS Ltd with direct participant accounts to support T2S settlement at OCSD. All settlement transactions in EUR will be settled in T2S and will follow the specific rules and procedures of T2S. The standard settlement cycle at T2S is T+2. In T2S, matched instructions can be cancelled on a bilateral basis only. The priority for SIX x-clear Ltd transactions will be assigned by T2S as priority “4”.

The SSIs have to be compliant with both the T2S requirements and the OCSD market practice for matching. SIX x-clear Ltd will send the counterparty SSIs in all instructions with the BIC11 format.

Matching at T2S will be based on the counterparty’s usage of additional matching fields. As settlement instructions of SIX x-clear Ltd will be issued to T2S by using mandatory matching fields only, SIX x-clear Ltd requires that counterparties limit their instruction details to mandatory matching fields.

The settlement instructions of SIX x-clear Ltd will be issued with the partial indicator PARQ, which means that the instruction will be eligible for partial settlement with a quantity threshold of the smallest denomination (in general 1), irrespective of the cash amount involved. In order to allow partial settlement to occur without restrictions, SIX x-clear Ltd expects that counterparties of SIX x-clear Ltd enable partial settlement at T2S by adopting the indicator PARQ as well.

SIX x-clear Ltd assumes that its counterparties will continue to be participants of OCSD, either directly or through an agent (irrespective of the T2S connectivity type ICP/DCP) for settlements at OCSD. SIX x-clear Ltd does not support OCSD settlements against participants other than OCSD in T2S.

3.0 Income and corporate action guide

The most common events in the Austrian market are dividend payments, bonus issues, rights issues, tender offers and stock splits.

SIX SIS as the settlement agent of SIX x-clear Ltd has published a corporate actions guide, which specifies the processing procedures applied by SIX SIS.

SIX x-clear Ltd will process all distributions, market claims, mandatory and voluntary events according to the proceeds received by SIX SIS. Below sections provide a high level overview of the most important processing procedures. For further information please consult the

User Guide SIX x-clear Ltd

Austria

MarketGuide of SIX SIS, published at www.six-securities-services.com > Login > Securities Services Private > MarketGuide > Country Information.

3.1 Ex date – Record date

For the Austrian market, corporate actions will be processed according to the key date sequences recommended by the CAJWG standards.

The ex date is the first date for trading shares with no entitlement. The ex date is scheduled one settlement cycle before the payment date (the record date remains one day prior to the payment date).

The entitlement is calculated based on the record-date (EOD) holdings. The record date is decisive for distributions in the form of cash and securities. Consequently, SIX SIS does not determine the eligible positions on the ex date, but only on the record date during EOD process.

3.2 Pay date

The payment date is the day on which the new entitlements are credited (and the old shares are removed, if applicable), which is the ex date + two business days. Generally, the new securities are available with immediate effect.

Cash payments will be executed on or around the actual payment date as soon as cleared funds have been received from the depository.

3.3 Cancel/Regeneration (transformation)

In case of a mandatory exchange (i.e. split, reverse split, conversion etc) OEKB will not cancel pending settlement instructions at record date (EOD), and both SIX x-clear Ltd and the clearing member will have to cancel the old settlement instruction and reinstruct the new trades according to the terms of the corporate action. If the clearing member is a SIX SIS participant, no action will be required by the clearing member, as SIX SIS will cancel/reinstruct for its participants.

3.4 Source tax

Please refer to the MarketGuide chapter 8.0 *Taxes* published by SIX SIS for taxation details. The MarketGuide is published at www.six-securities-services.com > Login > Securities Services Private > MarketGuide > Country Information.

As a general rule, SIX x-clear Ltd does not provide any services on tax vouchers or tax reclaims at the local tax authorities.

3.5 Currency

The currency most commonly distributed in the Austria market is EUR. There is a possibility that the CSD will not distribute the announced original currency. In this case, SIX x-clear Ltd will process the currency received from the custodian.

Austria

3.6 Buyer election

There is no buyer protection facility available at OeKB.

The buyer has to send his choice with a Liability Request Notice by fax to SIX x-clear Ltd's Settlement Desk no later than two hours prior to the election deadline. SIX x-clear Ltd will forward the buyer's choice with a Liability Allocation Notice to the failing seller by no later than one hour prior to the election deadline. The Liability Request Notice and the Liability Allocation Notice can be downloaded from the website at www.six-securities-services.com > Clearing > Forms & Guides > Forms.

The seller is obliged to execute the instruction and to deliver the outcome according to the buyer's choice. The cancellation of the original trade and the new instruction(s), according to the relevant corporate action terms, need to be agreed bilaterally by SIX x-clear Ltd and the counterparty. The settlement dates of the new outturn will generally be the payment date of the corporate action transaction.

In case a deposit date is available, the seller shall deliver the rights/shares on the deposit date at the latest. A buyer/SIX x-clear Ltd is not obliged to accept delivery of rights/shares after such date. Therefore the rights/shares could be returned to the seller. The seller still has an obligation to fulfill the executable buyer's choice.

If a seller fails to deliver the rights/shares by the relevant deadlines, the seller is held liable for any charges and penalties received in connection with the failing delivery. This liability may be in the form of:

- Elections to tender
- Missed economic benefits on the onward sale of the underlying shares
- Buy-in fees imposed on our counterparty by other counterparties
- Market penalties from our onward deliveries failing
