### 1.0 Cross-rebate (additional rebate)

This chapter will be deleted completely (discontinuation of cross-rebate)

### 2.0 CCP Clearing Services

#### 2.1 Clearing Fees Cash Products

A volume-based tariff structure applies to clearing transactions (on a gross basis, i.e. before any netting) under which all levels must be passed through. The clearing volumes of different trading relations are bundled with SIX x-clear Ltd provided that they belong to the same legal entity and/or holding company. The SIX x-clear Ltd group volume is applicable where the combined group volume defines the prices on a step-scale. The average price applies to all members of the group.

For equity flows from the onboarding of existing clearing members at new trading venues, an attractive flat price is applicable. Please note that such a flat price volume is excluded from the group tiered pricing volume below.

Designation	Rate in CHF	VAT	Code
Clearing transactions: equity (SIX x-clear)	According to monthly volume as per the table below	0.00%	9100
